---

## PROFESSIONAL SUMMARY

Software Developer focused on front-end and full-stack development. Experienced in building responsive web and mobile applications using React, React Native, and Firebase. Strong at translating designs into clean, efficient code in Agile environments.

---

## HIGHLIGHTS

- React and Firebase application development
  - Responsive and accessible UI implementation
  - End-to-end project ownership
  - Agile and cross-functional collaboration
  - Clean, scalable code practices
- 

## EDUCATION

### Advanced Diploma, Computer Science

Mohawk College - Hamilton, ON

(Jan 2023 - Dec 2025)

---

## CERTIFICATIONS & TRAINING

### Certified Ethical Hacker (CEHv13)

EC-Council

(Expected April 2026)

### React Certification

W3Schools

(Dec 2025)

### React-Native Certification

Udemy

(Dec 2025)

---

## TECHNICAL SKILLS

### Frontend & Mobile

React, React Native, Vue.js, Next.js, JavaScript, HTML, CSS

### Backend & Services

Firebase, API Integration

### Tools & Platforms

Git, Figma, WordPress, Wix, Shopify

---

## PROFESSIONAL EXPERIENCE

### Front-End Developer

Quote Kong

(Jan 2025 - Present)

- Developed responsive UI components using React.
- Collaborated with designers and backend engineers on feature delivery.
- Improved performance through reusable component architecture.

### Full-Stack Developer

Lyman Rentals

(Aug 2024 - Present)

- Built and maintained a production web application using React and Firebase.
- Implemented responsive layouts for desktop and mobile.
- Led development, deployment, and client communication.

### Web Developer

Integr8

(Oct 2025 - Present)

- Developed a responsive React application.
- Configured Firebase hosting and custom domain deployment.
- Ensured performance optimization and browser compatibility.

### Web Developer

Windrush Technical

(Apr 2025 - Present)

- Built a responsive client website using Wix.
- Designed scalable layouts for future growth.
- Aligned development with branding and stakeholder needs.

### Mobile Developer

Haletale

(Jan 2024 - Apr 2024)

- Developed authentication screens in React Native.
- Translated Figma designs into accessible UI components.
- Improved mobile usability through responsive layouts.

---

## PROJECTS

### ParentPal - Capstone Project

(Jan 2025 - Dec 2025)

- Built a full-stack app using React and Firebase.
- Implemented authentication and database design.
- Created system documentation and testing plans.

### Airplane Identification - Research Project

(Jan 2025 - Dec 2025)

- Developed an aircraft recognition system using YOLO.
  - Prepared and annotated training datasets.
  - Collaborated on applied computer vision research.
-
